EDUCATION

BS in Information Technology
Don Honorio Ventura State University
June 2018 – September 2022
Pampanga, Philippines

TECHNOLOGY STACK

Java
Vaadin
MySQL
BitBucket/Git
HTML/CSS
C++
PHP/Laravel
JavaScript/ReactJs

SOFT SKILLS

Collaborate effectively with team members through written and verbal communication.

Work well in a team-oriented environment.

Effectively managed multiple tasks and priorities, consistently meeting project deadlines and exceeding expectations.

Quickly adapting to new project requirements, learning and implementing new solution within a tight timeframe.

CAREER OBJECTIVE

With over 1 year of experience as a software developer proficient in Java, Vaadin, MySQL, and Bitbucket, along with a diverse skill set gained during my college years (HTML, CSS, C++, PHP, JavaScript, Bootstrap, Laravel, ReactJS, Firebase, Git), I am eager to contribute my expertise to dynamic projects. Seeking a challenging role where I can leverage my current strengths, embrace continuous learning, and collaborate with innovative teams to drive software excellence.

WORK EXPERIENCE

Jr. Software Engineer
Tech Mahindra
September 14, 2022 – Current / Quezon City, Philippines

- Collaborating with senior developers to implement and maintain core functionalities of banking applications/banking reports using Java.
- Integrating Java components with banking infrastructure, including backend services and database systems.
- Developing and maintaining core functionalities of banking applications using Java, ensuring compliance with security and regulatory standards.
- Utilizing Vaadin to design and develop secure and user-friendly web interfaces for banking applications.
- Conducting thorough testing and debugging of Vaadin interfaces to guarantee smooth and secure user interactions.
- Keeping abreast of Vaadin updates and incorporating new features that align with banking application requirements.
